- Do not disassemble the item and do not attempt to repair it yourself. It does not contain any serviceable parts for you. In case of questions or problems turn to our customer service.

Features

- Removes solder fumes efficiently.
- Adjustable angle for accurate placement, high performance and low noise fan.
- Replaceable activated carbon filter made of high quality PU foam.
- Can significantly reduce headaches, eye irritation and nausea.
- Global applicability: Wide-range voltage design(100-240V), suitable for use in a variety of regions.
- Low power consumption: the power is only 8W, remarkably energy-saving.
- High-quality fan: comes with a pressurized and powerful fan.
- High-efficiency smoke absorption capacity: 1.5m³ / s
- Filtering device: activated carbon.

Operation

- During installation, follow the instructions in each section.
- Take the fume extractor out of the package and put it on the table.
- Adjust the angle of the fan as needed.
- Plug in and switch it on. Your work is ready to go.
- The filter should be replaced once a month under normal use as its absorption ability has declined.
- Observe the valid safety regulations for your workplace.
- Do not run the power cord around sharp edges or over hot surfaces.
- Do not work on electrically live parts.
- Unplug it when it is not in use or being cleaned. Do not pull on the power cord, always grasp the plug.
- During breaks and after work, do not leave the item unattended while it is turned on. Keep children away from the item while it is in operation.
- Waste electrical products should not be disposed of with household waste.
- Recycle where facilities exist. Check with you local Authority or retailer for recycling advice.

Information regarding waste disposal

You are not permitted to dispose of this device in household garbage. This device corresponds to the EU-directive concerning the “Waste of Electrical and Electronic Equipment”. Please dispose of the device in your local collection point.
